

## Professional and Responsive Technical Support

GF AgieCharmilles Technical Support provides you with professional and responsive support through an experienced service network of experts.

Whether you need diagnosis of or assistance with technical challenges, parts identification, maintenance services or installation of upgrades, we are here to answer your questions and provide solutions as quickly as possible.

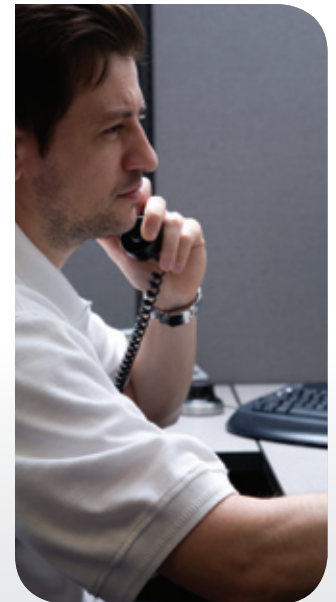

### We are at your service.

With over 100 highly trained service engineers in 27 states and Canada, you'll receive unmatched responsiveness, regardless of your location. Our Technical Support team provides:

- + Direct live response from an experienced service engineer
- + Extremely short, if any, "on hold" times
- + Extensive off-the-shelf parts availability
- + Conveniently located service engineers

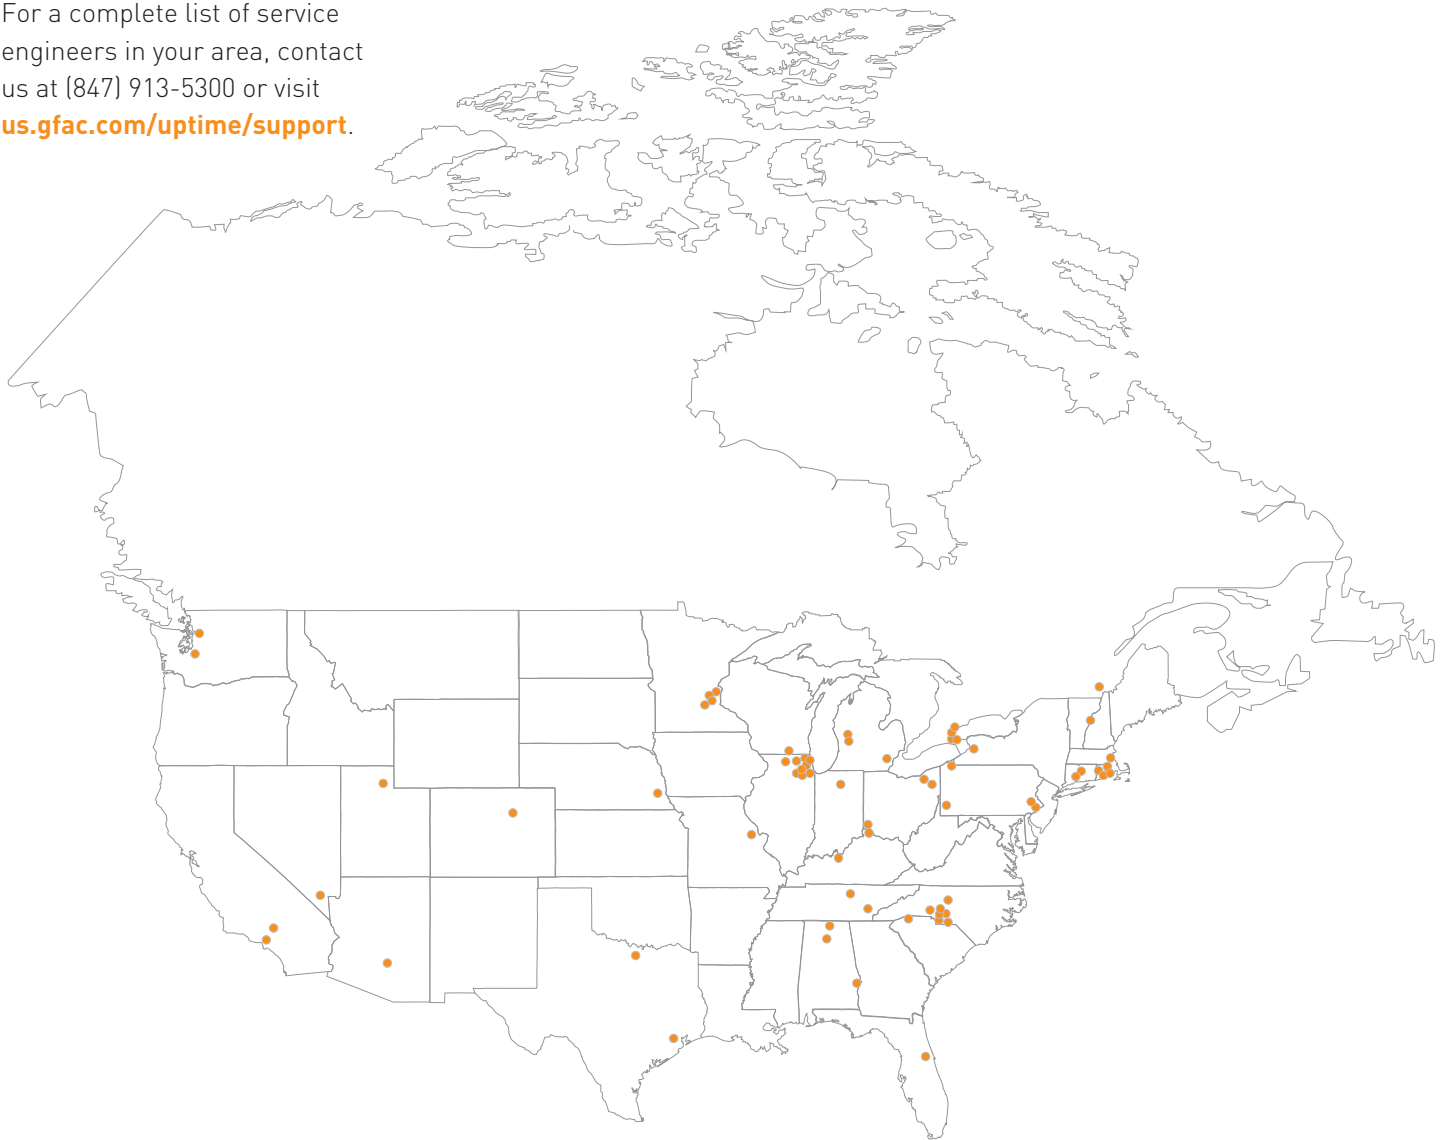

### Unparalleled application support.

As part of GF AgieCharmilles Technical Support, our application specialists will conduct feasibility studies and test cuts, giving you the confidence of having the right equipment and technology for your applications. You'll gain a competitive advantage throughout the life of your GF AgieCharmilles equipment.
