

AC Pal

AC Pal At a glance

A simple step into the world of automation.

Modest demands, major benefits!

It is an easy-to-use, user-friendly pallet changer for automatic changing of pallets for a table chuck in die-sinking and wire EDM machines. And what is more, AC Pal only needs minimal floor space.

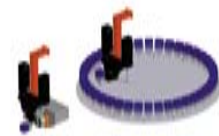

Simple access.

The design, with a sliding door over all of one side, gives maximum access to the magazine, making it easier to load and unload the pallets. This extremely compact unit is simple to install. No costly modifications to the machine are needed.
