

## Liechti Powerful Solutions

# A-axis analogue sensor upgrade

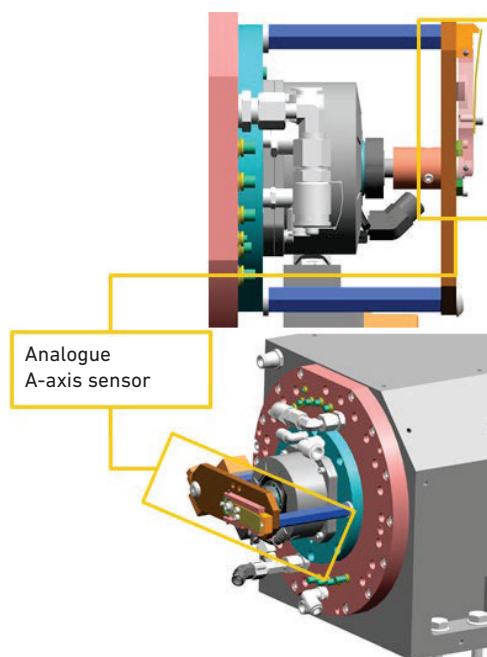

### Increased process stability = increased productivity

For this reason, we offer an upgrade of the A-axis with an analogue sensor instead of the existing digital sensor, by a Liechti field service engineer.

**This upgrade at your facility will be completed within two working days.**

- Based on proven references, we offer this preventive upgrade to ensure the highest process stability of your airfoil production
- Drastic reduction of the sensor calibration time to reduce downtime to a minimum
- Eliminate disturbances connected to chuck monitoring

**Please contact us for more information!**

Planned for

## Turbomill

We're pleased to provide an offer based on your specific requirements. We've got the right solution for you!

**Offer valid until 31.12.2020**

**Special Offer**

**Four steps to increase your profit**

### Plan Your Profit

Solution engineering of your technical and economical production requirements

### Performance

g-Technology for highest quality and quantity output

### Partnership

Support and performance updates over entire machine life

### Profitability Increase
