## Learn to operate training

# Milling Tool measuring

article n°200010773 (at GF site)

article n°200010774 (at customer site)

Duration	Number of participants	Experience level	Requirements	Machines
1 day	4	Intermediate	Basic programming course	MILL P, HPM - MILL S/X, HSM

  

### What are the course contents?

- + Use iTNC530 or TNC640
- + Calibrate a laser measuring system
- + Use measurement cycle tools
- + Manage broken or used tools

### What is the course objective?

- + Use the tool measurement cycles in a correct and efficient way

### What are the course benefits?

- + Eliminate rejected parts
- + Optimize consumption of cutting tools to reduce costs
- + Reduce costs by optimizing consumption of cutting tools
- + Reduce repetitive operator tasks
- + Increase operating time for other tasks
