

Master productivity in EDM Wire cutting by using advanced programming

Maximize performance training

EDM–Wire Advanced programming

article n°200010689 (at GF site)

article n°200010690 (at customer site)

Duration	Number of participants	Experience level	Requirements	Machines
2 days	4	Intermediate	EDM-WIRE Basic Training EDM-WIRE Advanced Training	AC Progress, CUT E, CUT P, CUT P Pro, CUT X 000

What are the course contents?

- + Introduction to specific advanced programming language
- + Automation of repetitive measurements of pieces and machining processes
- + Creation of standardized routines
- + Creation of a measurement ratio program
- + Strategy for optimized machining of one or more workpieces
- + Creating a full example

What is the course objective?

- + In this course, participants learn how to standardize complex routines, such as measurement of pieces and automated machine Tooling.

What are the course benefits?

- + Make productivity gains, eliminate the risk of error, and profit from enhanced flexibility by machining at different levels of precision.
