

Produce high precision parts in EDM Wire cutting by mastering thin wires set-up and process

Maximize performance training

EDM–Wire Thin wires

article n°200010685 (at GF site)

article n°200010686 (at customer site)

Duration	Number of participants	Experience level	Requirements	Machines
One day	Four	Intermediate	EDM-WIRE Basic training EDM-WIRE Advanced training	AC Progress, CUT E, CUT P, CUT P Pro, CUT X 000

What are the course contents?

- + Presentation of objectives of machining with fine wire
- + Presentation of fine wire ranges and their respective applications
- + Raising awareness of the importance of wire quality
- + Machine configurations
- + Option assembly
- + Machine settings
- + Creating a full example

What is the course objective?

- + In this course, participants learn how to make high-precision pieces with radii less than 0.1 mm.

What are the course benefits?

- + Gain the skills you need in order to produce small-radius pieces.
- + Answer customers' needs and open new market horizons.
- + Learn to produce very high-precision, fine-geometry pieces (slot type, miniature gears, clock mechanisms, etc.).
