

The solution to finance your equipment

Reap the benefits of high-quality machining – without increasing capital expenditures

GF Machining Solutions Finance enables you to lower the financial barriers for your investment plans thanks to affordable monthly payments. This fuels your growth and reduces your total cost of ownership.

Your benefits at a glance

- Finance up to 100% of your project
- Free up cash and keep bank lines open
- · Better match cash inflows and outflows
- · Easier equipment upgrades
- · Possible tax benefits
- Possibility to include software, installation and training costs

Realize your business plans

Get ready to grow by investing in unmatched, state-of-the-art technology. The benefits – productivity, efficiency, quality, and cost, to name a few – directly impact your ability to compete profitably. With GF Machining Solutions Finance, schedule payments to fit fluctuations in cash flow, upgrade to the latest equipment or finance new manufacturing investment projects.

Your advantages

Minimal initial expenditure

GF Machining Solutions Finance changes the production cost equation. Our program allows you to deploy machining and automation solutions with low or no upfront costs and low monthly payments.

We offer more than a wide range of machines, automation and services – we also enable you to finance your equipment.

Tailored financing

Your business needs capital to grow and innovative equipment to compete. Benefit from financing tailored to your requirements and brokered by GF Machining Solutions—just for you.

Leasing options

GF Machining Solutions Finance offers a variety of financing options to meet your needs in partnership with DLL. Contact your distributor or DLL representative for more information.

Financial flexibility for every customer

Benefit from a variety of financial solutions for the entire GF Machining Solutions technology portfolio. The financing program is suited for different needs and investment situations and makes high-quality machines more accessible for you, taking into account your specific circumstances.

Four different financing products are available

- The operating lease, our most popular financing model, which allows you to use the machine, but the property title remains with DLL
- The financial lease, which allows you to eventually keep the machine, but the property title remains with DLL
- The classical loan, which allows you to keep the machine: the property title is transferred to you
- Other products, which make more advanced forms of financing possible
