

# Protect and Secure programs for femtosecond Laser

Secure your investment

Secure your investment in a cutting-edge technology with services dedicated to your AgieCharmilles LASER P 400 Laser texturing solution.

Designed especially for you, our two service program levels help you fully secure and exploit your capital investment:

Need an extended warranty? Count on our Secure program.

Your benefits:

- + Protect your key components with expert support from our highly trained service engineers.
- + Protect your photonic components, increase your uptime, and maximize your machine availability with measurement, parameter adjustments and cleaning of optics.

- + Stay connected to our modular digital services, anytime and from anywhere, with rConnect.
- + Interact with GF Machining Solutions' experts.
- + Keeps your commitments with support from our Live Remote Assistance app.

- + Quickly and efficiently get your AgieCharmilles LASER P 400 back up and running in the event of a major Laser breakdown with our exchange service.
- + Benefit from attractive conditions compared to a new femto Laser source.

- + Focus on your technical progress and maximizing your productivity gains by securing your machine availability.
- + Gain the confidence of knowing that your main components are covered in cases of unexpected breakdowns.
- + Avoid unanticipated repair-related costs.
- + Achieve better control of your free cash flow.
