Service solutions for Femto Laser sources

Ensuring longevity and performance

Maintaining a continuous production and safeguarding the value of technological components of your machine is crucial, especially the valuable electronic components of the Femto laser source which have a limited lifespan. At GF Machining Solutions, our commitment to quality extends beyond the purchase of your Laser machine: we offer specific services to ensure uninterrupted operation and protect your laser source.

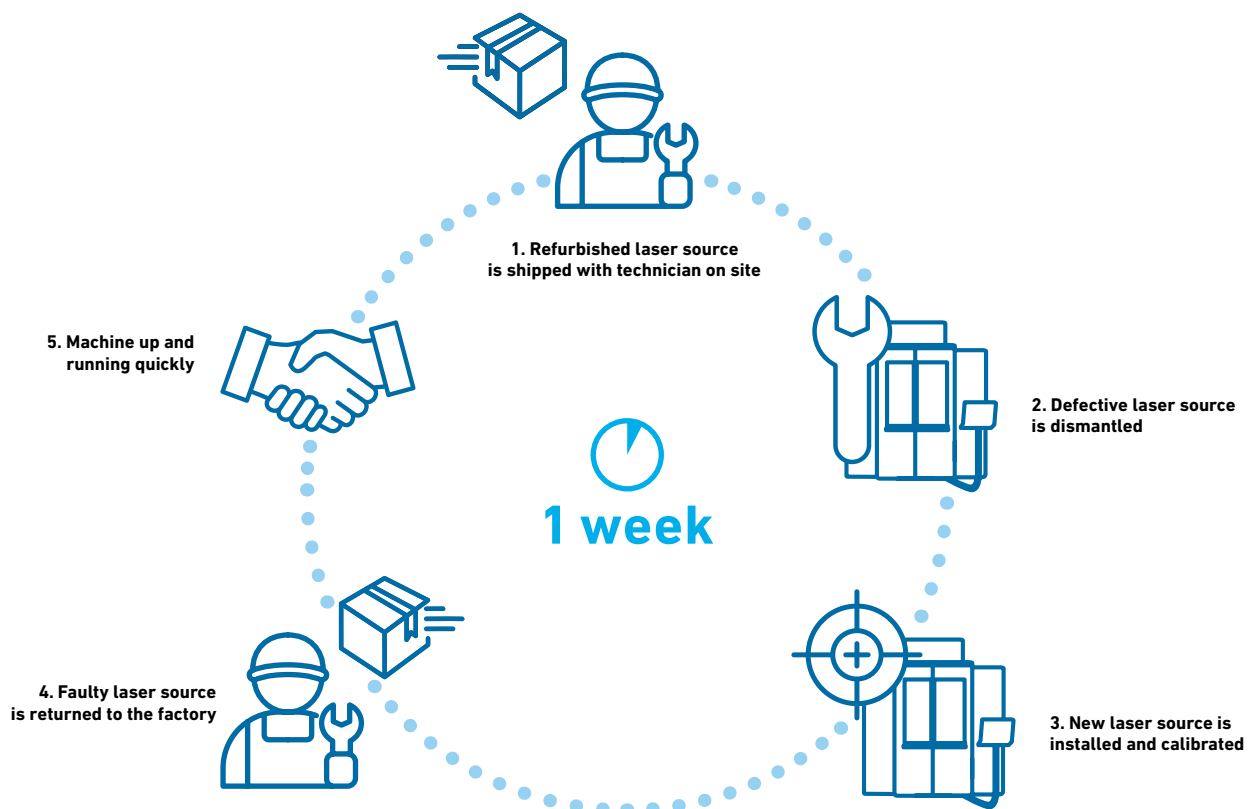

Standard exchange program

Get your machine back up and running quickly and efficiently in the event of a major Laser breakdown thanks to our exchange program.

Available with or without warranty!

- If your machine is still under warranty, the exchange is performed cost-free.
- If your machine is no longer under warranty, you will be charged depending on the age of the defective source.

With a stock of fully refurbished Laser sources in a condition close to a new one, we enable you to get back to production rapidly.

Free your mind with a 5-year machine warranty

Because the longevity and performance of your Laser machine are our highest concern, our focus is prioritizing key services tailored to you. With our Gold Success Pack, take advantage of a complete premium pack that provides worry-free coverage and ensures your machines are future-ready.

Extended Warranty
For up to five years
