

Success Packs

Tailored service solutions for every need

How can your business reach higher grounds?

Minimize downtime and quickly recover from unexpected breakdowns.

Prevent machine issues and maintain performance.

Protect against potential failures and unforeseen repair costs.

Success Packs

Service solutions ready to keep your operations running

Three annual subscription packages

Discover our Success Packs tailored to provide continuous support for your machines throughout their entire lifecycle, ensuring your productivity remains secure.

Each pack is designed to meet every operational need, with the level of support necessary to help you reach your goal with confidence and get the most of your assets.

Bronze

Fast reply services to ensure machines are swiftly back up and running.

Silver

Periodic maintenance services to keep your machines in optimal condition.

Gold

Extended warranty coverage to mitigate financial risks and focus on your core business.

Success Packs

Your main benefits

Cost reduction

Enjoy better rates than purchasing individual parts and services separately.

Reliable support

Benefit from fast-track assistance for quick resolutions, and an extended warranty for long-term peace of mind.

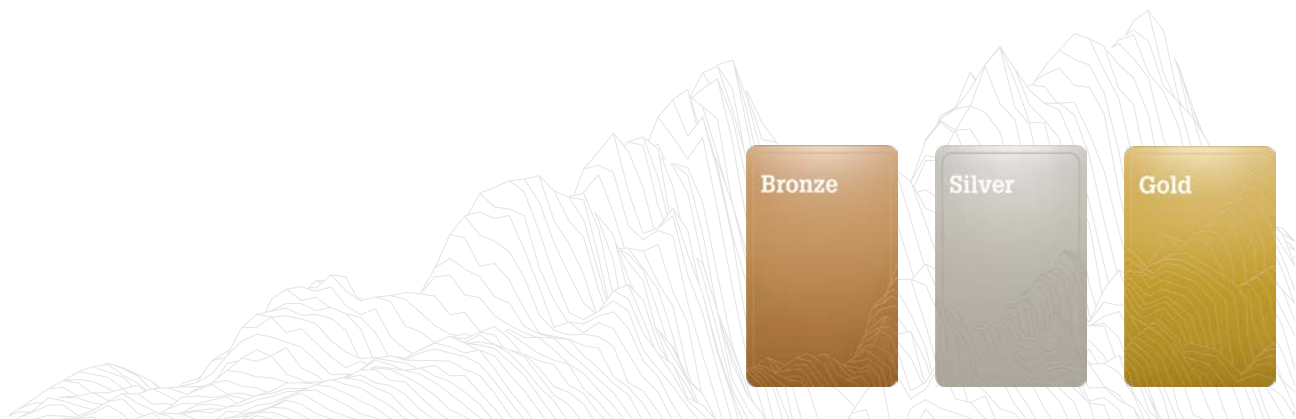

Global responsiveness

Get consistent quality and support standards across your entire machine fleet, no matter where you're located.

Success Packs

Speedy Access

Fast track for support

Extended Remote Support

24/5 expert support through My rConnect

Certified Preventive Maintenance

Annual machine service performed under GF standards

Core Components Diagnosis

Annual check-up on the core machine components

Discounts

Preferred prices for parts and labor

Extended Warranty

For up to five years

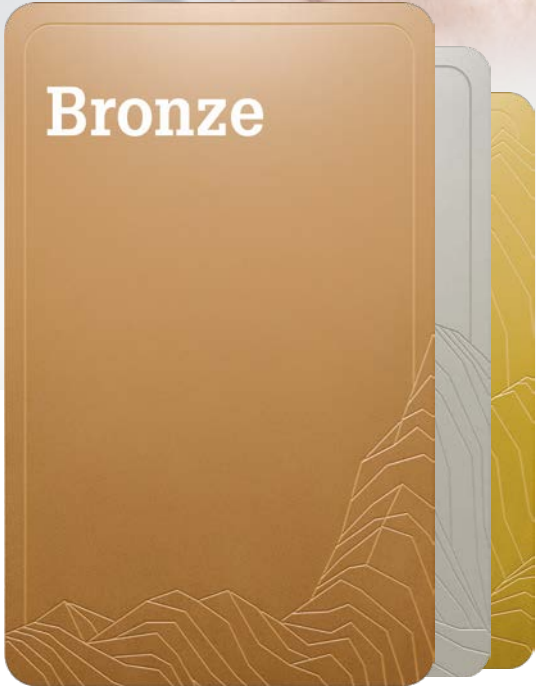

12x

**faster recovery than
with any on-site,
scheduled intervention**

Bronze

Included services

Bronze Success Pack

For full responsiveness

Tailored to provide essential support with fast interventions to keep your machines running smoothly.

You get full expert guidance when you need it most through My rConnect*, ensuring minimal downtime and reliable performance.

Speedy Access

- Prompt support through My rConnect with up to 1 hour callback after a service request, ensuring fast resolution of critical issues.
- Fast-track scheduling for on-site interventions, enabling swift physical support.

Extended Remote Support

- Access to a team of over 50 expert remote diagnosticians, available 24/5, from Monday to Friday via My rConnect.
- Highly-trained professionals ready to troubleshoot and resolve issues at any hour, even during night shifts.

*My rConnect is our web-based platform supporting digital services, available for all GF machines. Faster recovery is guaranteed when the machine is connected.

Silver Success Pack

For peak performance

Designed to maintain high performance and efficiency through consistent, reliable machine upkeep.

With annual maintenance and specialized diagnostics following GF standards on top of timely support services, you maximize your machine's performance and reliability throughout the year.

Certified Preventive Maintenance

- Includes a detailed preventive maintenance session, following GF's standardized checklist.
- Comes with an Original Equipment Manufacturer (OEM) parts kit, ensuring parts compatibility.

Core Components Diagnosis

- Comprehensive assessment of your machine's core components to detect wear and prevent issues early.
- Document and monitor the condition of your machine over time.

Discounts

- Receive preferred pricing on any additional parts and labor required outside of the annual maintenance.

Advanced services can be added in complement based on machine condition to achieve maximum uptime.

0 risk
to you on the efficiency
and stability of your
production plant

For guaranteed peace of mind

Our complete premium, worry-free coverage to ensure your machines are future-ready.

You maintain consistent production flow with confidence, knowing your equipment is fully covered by our most extensive offer, including extended warranty, preventive services and responsive support.

Extended Warranty

- Designed to protect your equipment and minimize unexpected expenses.
- Complete coverage for potential repair costs for up to five years on both parts and labor.

Enhance your Success Packs with add-on services

To customize your experience, we offer a range of add-on services tailored to meet your specific needs.

Whether you are looking for advanced connectivity and real-time insights, maintain stable machining conditions, or invest in staff training, our complementary services provide the perfect solution.

 My rConnect

Bronze

Get first-class support via My rConnect for connected machines

Remotely connect to your CNC machine via Remote Access, allowing either you or GF support to troubleshoot and resolve issues efficiently. With Live Data, you can access real-time machine data and a live notification system to stay informed about your machine's status and performance.

Silver

Ensure stable machining conditions throughout your machine's lifetime

Explore our eCatalog to discover our certified consumables that help you maintain the highest standards of machine performance and reliability. Benefit from our advanced S3R tooling solutions designed to enhance precision and efficiency.

ecatalog.gfms.com

Gold

Secure your staff's know-how and control your costs

Ensure your staff is well-trained with our modular training programs, customized to meet your specific needs. Don't miss out on these opportunities to turn your machine operators into true experts and achieve better machining results.

We deliver our Success Packs to the highest standards of expertise

We are close to you

- 800 experienced services engineers located in 50 countries
- Experts in machine care, maintenance and upgrades

We are committed to excellence

- Regularly and rigorously trained through our Training Academy
- Ensuring top-tier solutions

We use high-quality parts

- Use of original, tested parts designed for specific machines
- Ensuring compatibility and reliability

We work with advanced processes and tools

- Use of AI for internal knowledge transfer
- Reference in field service management using first-class software
